

## **BD Marine offer marine engineering, manufacturing, fabrication, servicing, repairs and testing services.**

### **Operating since 1974**

BD Marine Ltd have been operating within the marine Environment for over 40 years providing a professional engineering service covering a wide variety of manufacture, fabrication, servicing and repairs.

### **Lloyds register Test House facility**

In 2006 we acquired an additional 10,000 sq.ft test house facility, gained Lloyds Register approval as a recognised proving establishment and expanded our service range to offer a complete lifting gear manufacture and testing service - both in-house and on-site.

### **Bespoke service**

We offer a bespoke service for both private and commercial contracts which has resulted in a varied and established portfolio of customers from classic yachts and commercial shipping companies to subsea cable laying and recovery companies.

### **Experienced workforce**

Our workforce consists of fully experienced / coded tradesmen who have the versatility to work either within our own workshops or on site, be it small craft, yachts, power boats or ships.
